Genetic, Social, and General Psychology Monographs, 1999, *125*(4), 469–470

Index to Volume 125

The annual index is organized by first author and by title. Page numbers refer to the following issues:

Number 1 (February): 1–104
Number 2 (May): 105–224
Number 3 (August) 225–328
Number 4 (November) 329–472

AUTHOR INDEX

Abraham, R. *Emotional intelligence in organizations: A conceptualization.* 209–224.

Assink, E. M. H., Soeteman, W. P., & Knuijt, P. P. N. A. *Word decoding and picture naming in children with a reading disability.* 251–268.

Brook, J. S., Brook, D. W., & Whiteman, M. *Older sibling correlates of younger sibling drug use in the context of parent–child relations.* 451–468.

Brook, J. S., Richter, L., Whiteman, M., & Cohen, P. *Consequences of adolescent marijuana use: Incompatibility with the assumption of adult roles.* 193–207.

Catalano, J. A. *Using multidimensional scaling and cluster analysis for understanding information processing and schizophrenia.* 313–328.

Hendricks, C., Pasnak, R., Willson-Quayle, A., Trueblood, L., Malabonga, V., & Ciancio, D. *Effects of instruction in sequencing and class inclusion for first graders.* 297–312.

Leikin, M., & Breznitz, Z. *Syntactic processing of Hebrew sentences: ERP measures.* 173–191.

Levis, D. J. *The negative impact of the cognitive movement on the continued growth of the behavior therapy movement: A historical perspective.* 157–171.

McNamara, L., & Ballard, M. E. *Resting arousal, sensation seeking, and music preference.* 229–250.

Pillow, B. H. *Epistemological development in adolescence and adulthood: A multidimensional framework.* 413–432.

Powell, M. R., & Hendricks, B. *Body schema, gender, and other correlates in nonclinical populations.* 333–412.

Rotenberg, V. S., & Weinberg, I. *Human memory, cerebral hemispheres, and the limbic system: A new approach.* 45–70.

Shek, D. T. L. *Parenting characteristics and adolescent psychological well-being: A longitudinal study in a Chinese context.* 27–44.

Shek, D. T. L. *Paternal and maternal influences on the psychological well-being of Chinese adolescents.* 269–296.

Shmotkin, D., Lomranz, J., Eyal, N., & Zemach, M. *The contribution of personal resources to physical and mental health: Looking into age and gender effects.* 5–25.

Taris, T. W. *The mutual effects between job resources and mental health: A prospective study among Dutch youth.* 433–450

Tzuriel, D. *Parent–child mediated learning interactions as determinants of cognitive modifiability: Recent research and future directions.* 109–156.

Westby, M. D., & Ferraro, F. R. *Frontal lobe deficits in domestic violence offenders.* 71–102.

TITLE INDEX

Body schema, gender, and other correlates in nonclinical populations. *Matthew R. Powell & Bryan Hendricks.* 333–412.

Consequences of adolescent marijuana use: Incompatibility with the assumption of adult roles. *Judith S. Brook, Linda Richter, Martin Whiteman, & Patricia Cohen.* 193–207.

The contribution of personal resources to physical and mental health: Looking into age and gender effects. *Dov Shmotkin, Jacob Lomranz, Nitza Eyal, & Mina Zemach.* 5–25.

Effects of instruction in sequencing and class inclusion for first graders. *Charlene Hendricks, Robert Pasnak, Angela Willson-Quayle, Linda Trueblood, Valerie Malabonga, & Dennis Ciancio.* 297–312.

Emotional intelligence in organizations: A conceptualization. *Rebecca Abraham.* 209–224.

Epistemological development in adolescence and adulthood: A multidimensional framework. *Bradford H. Pillow.* 413–432.

Frontal lobe deficits in domestic violence offenders. *Margaret Donovan Westby & F. Richard Ferraro.* 71–102.

Human memory, cerebral hemispheres, and the limbic system: A new approach. *Vadim S. Rotenberg & Igor Weinberg.* 45–70.

The mutual effects between job resources and mental health: A prospective study among Dutch youth. *Toon W. Taris.* 433–450.

The negative impact of the cognitive movement on the continued growth of the behavior therapy movement: A historical perspective. *Donald J. Levis.* 157–171.

Older sibling correlates of younger sibling drug use in the context of parent–child relations. *Judith S. Brook, David W. Brook, & Martin Whiteman.* 451–468.

Parent–child mediated learning interactions as determinants of cognitive modifiability: Recent research and future directions. *David Tzuriel.* 109–156.

Parenting characteristics and adolescent psychological well-being: A longitudinal study in a Chinese context. *Daniel T. L. Shek.* 27–44.

Paternal and maternal influences on the psychological well-being of Chinese adolescents. *Daniel T. L. Shek.* 269–296.

Resting arousal, sensation seeking, and music preference. *Linda McNamara & Mary E. Ballard.* 229–250.

Syntactic processing of Hebrew sentences: ERP measures. *Mark Leikin & Zvia Breznitz.* 173–191.

Using multidimensional scaling and cluster analysis for understanding information processing and schizophrenia. *James A. Catalano.* 313–328.

Word decoding and picture naming in children with a reading disability. *Egbert M. H. Assink, Wietske P. Soeteman, & Paul P. N. A. Knuijt.* 251–268.
